

Floor Care & Maintenance Equipment Hour Maintenance Meters

There is a wide variety of equipment utilized in the care and maintenance of floors. Some equipment can be rented for home floor care use while other equipment will be used in a commercial or industrial facility. Hour Meters are used for a variety of reasons:

- Equipment maintenance
- Warranty validation
- Leasing time
- Job charge time

Preventive maintenance should be scheduled and performed on a regular basis to maintain optimum operating parameters. An Hour Meter is an inexpensive way and cost effective method to monitor equipment operating hours.
